KRATOM ALKALOIDS PANEL

PARTNERING WITH AXIS FORENSIC TOXICOLOGY

Axis Forensic Toxicology offers testing for Kratom Alkaloids as part of our Comprehensive Panel with Analyte Assurance, or as a directed add on, using Order Code 13310.

The scope of this add-on testing currently includes:

NAME	MATRIX	MINIMUM SPECIMEN VOLUME	REPORTING LIMIT	METHOD
7-Hydroxymitragynine	Blood	0.5 mL	1.0 ng/mL	LC/MS/MS
Mitragynine	Blood	0.5 mL	1.0 ng/mL	LC/MS/MS
Mitragynine Pseudoindoxyl	Blood	0.5 mL	1.0 ng/mL	LC/MS/MS
Dihydro-7-Hydroxymitragynine (MGM-15)	Blood	0.5 mL	1.0 ng/mL	LC/MS/MS
10-Fluoro Dihydro-7-Hydroxymitragine (MGM-16)	Blood	0.5 mL	1.0 ng/mL	LC/MS/MS

To order this testing, please select order code 13310 or notate on the Axis Forensic Toxicology specimen requisition that you would like to test for Kratom, Mitragynine, or Kratom Alkaloids.

Please note: Analytes are reported quantitatively in blood. We also ask that you include as much case history and information as possible.
